FIRM SUMMARY

Shive-Hattery stands out as a full-service, multi-disciplinary design firm with experience working with all branches of the Department of Defense, as well as numerous other federal agencies. Our team is equipped to handle a broad spectrum of project types, offering both specialized niche services and more conventional design solutions. We regularly engage in indefinite-delivery indefinite-quantity (IDIQ) contracts, and our portfolio includes successful project deliveries utilizing both design-build and progressive design-build approaches. Our expertise covers every phase of a project, beginning with initial feasibility studies through construction period service (CPS) to ensure a smooth and effective execution. Whether the project is highly specialized or more traditional in nature, Shive-Hattery provides the knowledge and resources necessary to meet the unique needs of federal clients from start to finish.

Scope of Federal Work

Unique Identity ID: KJEWMLZCP1Y7
CAGE/NCAGE: 1RHP6

In the past 20 years, Shive-Hattery has worked on 300+ federal projects across the U.S. Experience includes work at:

- Davis-Monthan AFB, Tucson, AZ
- Fort Benning, Columbus, GA
- Fort Campbell, KY
- Fort Detrick, Frederick, MD
- Fort Eustis, Newport News, VA (now Joint Base Langley-Eustis)
- Fort Gordon, Richmond Co., GA (now Fort Eisenhower)
- Fort Hood, TX (now Fort Cavazos)
- Fort Huachuca, Cochise Co., AZ
- Fort Irwin, CA
- Fort Jackson, Columbia, SC
- Fort Knox, KY
- Fort Lee, Prince George Co., VA (now Fort Gregg-Adams)
- Fort Leonard Wood, Pulaski Co., MO
- Joint Base Lewis-McChord, WA
- Fort Polk, Vernon Parish, LA (now Fort Johnson)
- Fort Riley, KS
- Fort Rucker, AL (now Ft Novosel)
- Fort Sill, OK
- Holloman AFB, Otero Co., NM
- Luke AFB, Maricopa County, AZ
- Naval Air Station Lemoore, CA
- Nellis AFB, NV
- Offutt AFB, Omaha, NE
- Peterson AFB, Colorado Springs, CO
- San Diego Marine Recruiting Center, CA
- Travis AFB, CA

SELECTED EXPERIENCE

Luke Air Force Base 936 F-35 Field Training Addition, AZ

Design/build project was an addition to the existing facility aimed at providing training for F-35 Aircraft Ejection Seats. The approximately 11,000 SF addition included four new EML Classrooms and a large Ejection Seat Maintenance Training (ESMT) Room, as well as an administration area and several support spaces, designed and coordinated with Lockheed Martin's equipment and procedural requirements.

Information Operations Readiness Center, JBLM, WA

This 127,000 SF Readiness Center at Joint Base Lewis-McChord includes offices and specialized space to accommodate four units and over 450 people on drill weekends. The brick and masonry façade relates to historic JBLM buildings while projecting a contemporary flavor. *Silver Award for Design Excellence, Society of American Military Engineers, Seattle & Mt. Tacoma Posts, 2016.*

Family Housing FTW 295, Alaska

USACE Alaska design-build project. Responsible for architecture, interior design, sustainable design coordination, construction support, and design team coordination. New design concept based on the Corps' requirements. With Osborne Construction Co., the project was designed/built in 15 months.

Flagstaff Federal Courthouse, Flagstaff, AZ (In Design)

New 3-story 50,777 SF federal courthouse for the GSA located along historic Route 66. Will be constructed according to Level III security requirements. The steel framed, natural stone clad facility is designed utilizing the Crime Prevention Through Environmental Design principles and incorporates perimeter fencing, natural and constructed physical barriers, and required setbacks. It will be a LEED Silver, net zero facility. With Easterly Government Properties and Lusardi Construction.

U.S. Army Helicopter Maintenance Hangars, JBLM, WA

Gray Army Airfield at JBLM is home to numerous 20,000 to 40,000 SF hangars. Working with military personnel, we outlined renovations to maintain the historic qualities of these hangars from the 50s and 60s and extend the life of these facilities. We improved energy efficiency at the exterior envelope, upgrading HVAC, lighting systems, and communications systems, as well as added anti-terrorism protection. Hangars received new roofing, blast-resistant energy-efficient windows. The military continues to use these plans to update additional hangars on the base.
